Policies on Transportation Safety & Discipline

All children are to be courteous to their bus driver and remain seated whenever the vehicle is in motion.

In accordance with State law and our own safety standards, we insist that all children receiving transportation use safety belts, including the drivers.

In case of vandalism or accidental damage to our vehicles caused by your child, the repair responsibility belongs to the parent(s) of the child.

I have read, talked with my child about Transportation Safety and Discipline and understand I am responsible for any cost associated with the above matter.
